

## Adaptive Suite

# XBRL for Adaptive

**Adaptive Insights enables a complete close to disclose solution that helps you streamline your process, from consolidated financials, to published financial results.**

## Optimize Your Reporting Process from Close to Disclose

Adaptive Insights helps you take control of your disclosure process and create and submit your entire filing package for ease of use, efficiency, and clarity. You can create reports without the worries of broken links and struggles of manual data aggregation, with data sourced directly from Adaptive Consolidation, and then convert your reports to filed financials using Vintage with simplicity and ease.

### COMPLETE CLOSE MANAGEMENT

Consolidate your financials accurately and efficiently with Adaptive Consolidation's real-time modeling engine. There are no batch jobs or processes to run, so you can accelerate your close and increase productivity and collaboration across your team. With automated currency exchange, allocations, eliminations, reclassifications, minority interest, journal entries, and audit trails, Adaptive Consolidation is a comprehensive solution to meet all of your consolidation needs.

### AUTOMATION WITH ADAPTIVE OFFICECONNECT

Adaptive OfficeConnect, part of the Adaptive Suite, makes it incredibly easy to prepare financial results for filing. With Adaptive OfficeConnect, your data is always up to date and dynamically linked to your filing package and Adaptive Consolidation. Linking data between documents enables automatic updates when you refresh, so you no longer have to scour multiple files and verify that numbers are correct. Since all data can be updated at once, you can make last minute changes with confidence right up to the filing deadline.

### LAST MILE SUPPORT FROM VINTAGE

Adaptive Insights has partnered with Vintage, an industry leading printer, to enable the last mile of the close to disclose process. Vintage provides complete disclosure management, from XBRL tagging, to filings, to EDGAR HTML submissions, all integrated with Adaptive.

With years of experience and thousands of clients, Vintage meets your compliance needs and supports you during your quarterly and annual filings. The process is faster and more efficient – update a number in Adaptive, and that number flows through all reports and disclosure documents, taking the pain out of the process.
